

LICENSED RADIO STATIONS – LAC-MÉGANTIC

CMQ RESILIENCE FRAMEWORK · 3 KM RADIUS REPORT · GENERATED 2026-07-21

Scope. All licensed radio installations recorded by ISED (Innovation, Science and Economic Development Canada) within a **3 km radius of the Bell tower** at 3162 Rue Lafontaine, Lac-Mégantic, QC (45.5669, -70.8793). Four public ISED datasets were filtered (all source extracts dated 2026-07-07; ISED refreshes them monthly): terrestrial spectrum-licence sites, land mobile radio (TAFL LMR), fixed service / point-to-point microwave (TAFL Fixed), and broadcasting (TAFL Broadcasting). One physical station appears as multiple records in the sources – one row per antenna, channel or frequency.

4

spectrum-licence sites
(222 records)

22

LMR stations
(109 records)

2

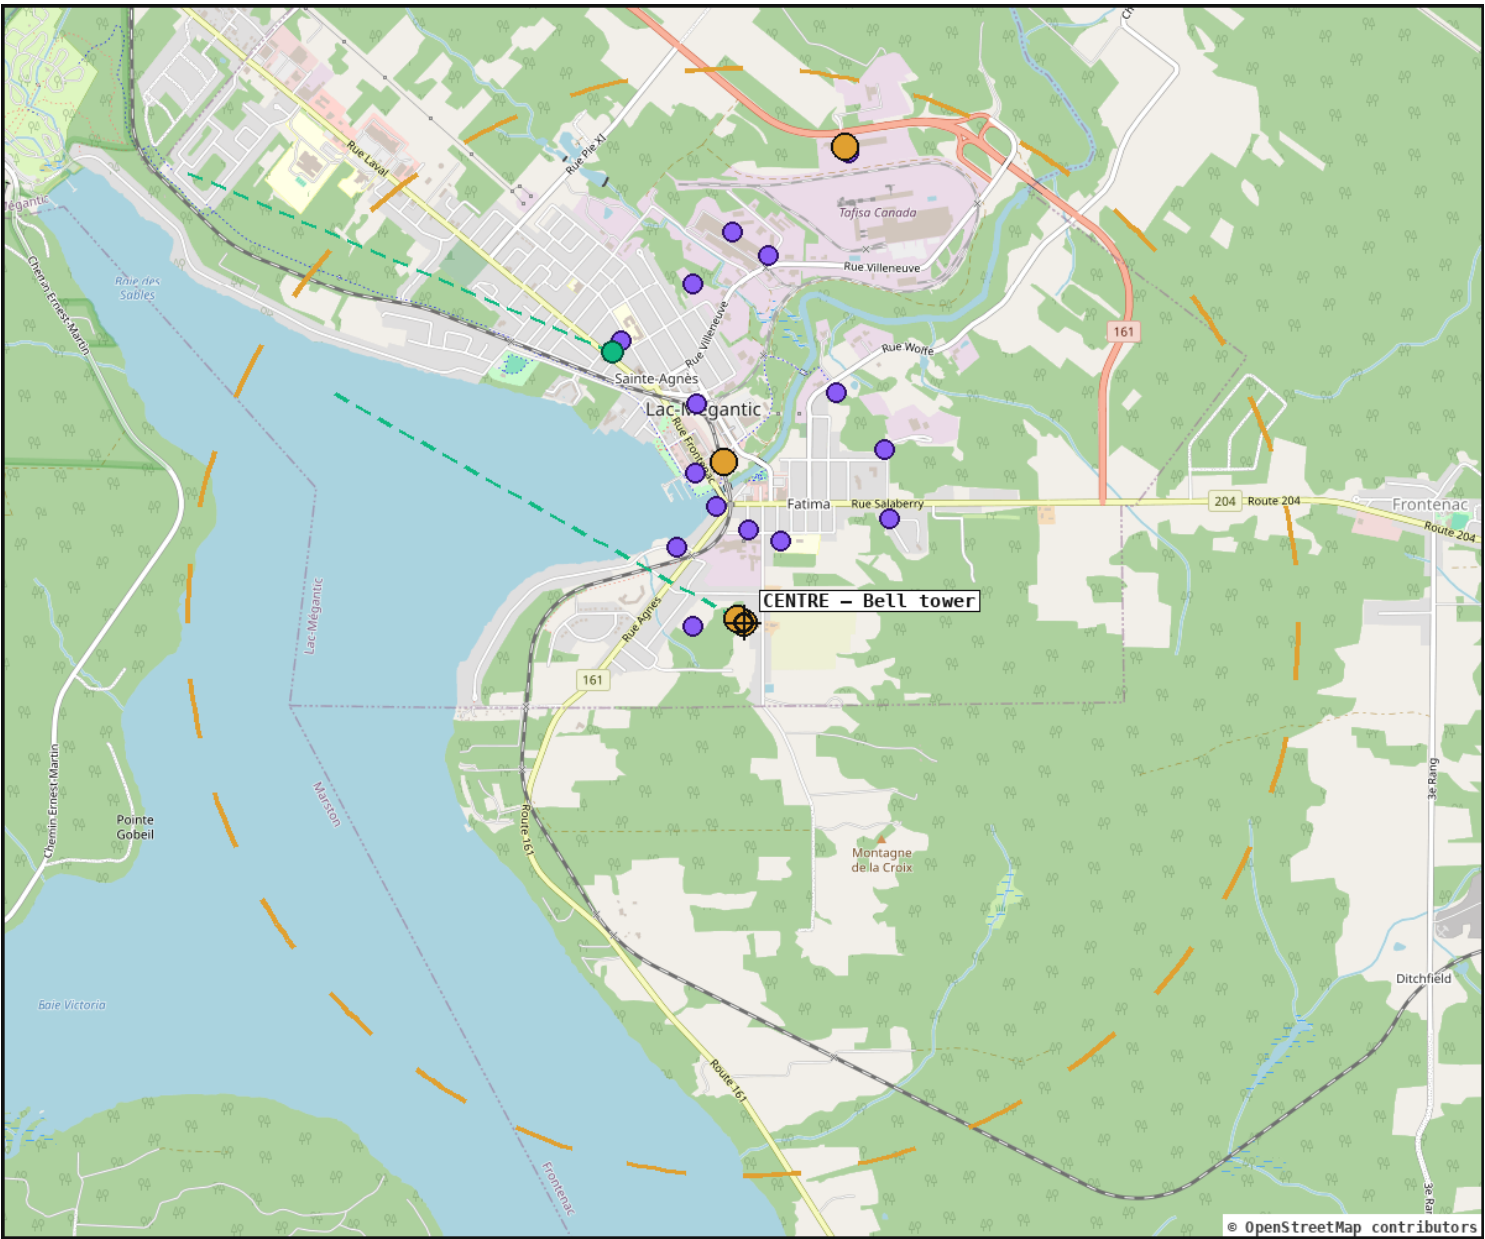

fixed / microwave sites
(3 records)

0

broadcast transmitters
(nearest 8.2 km away)

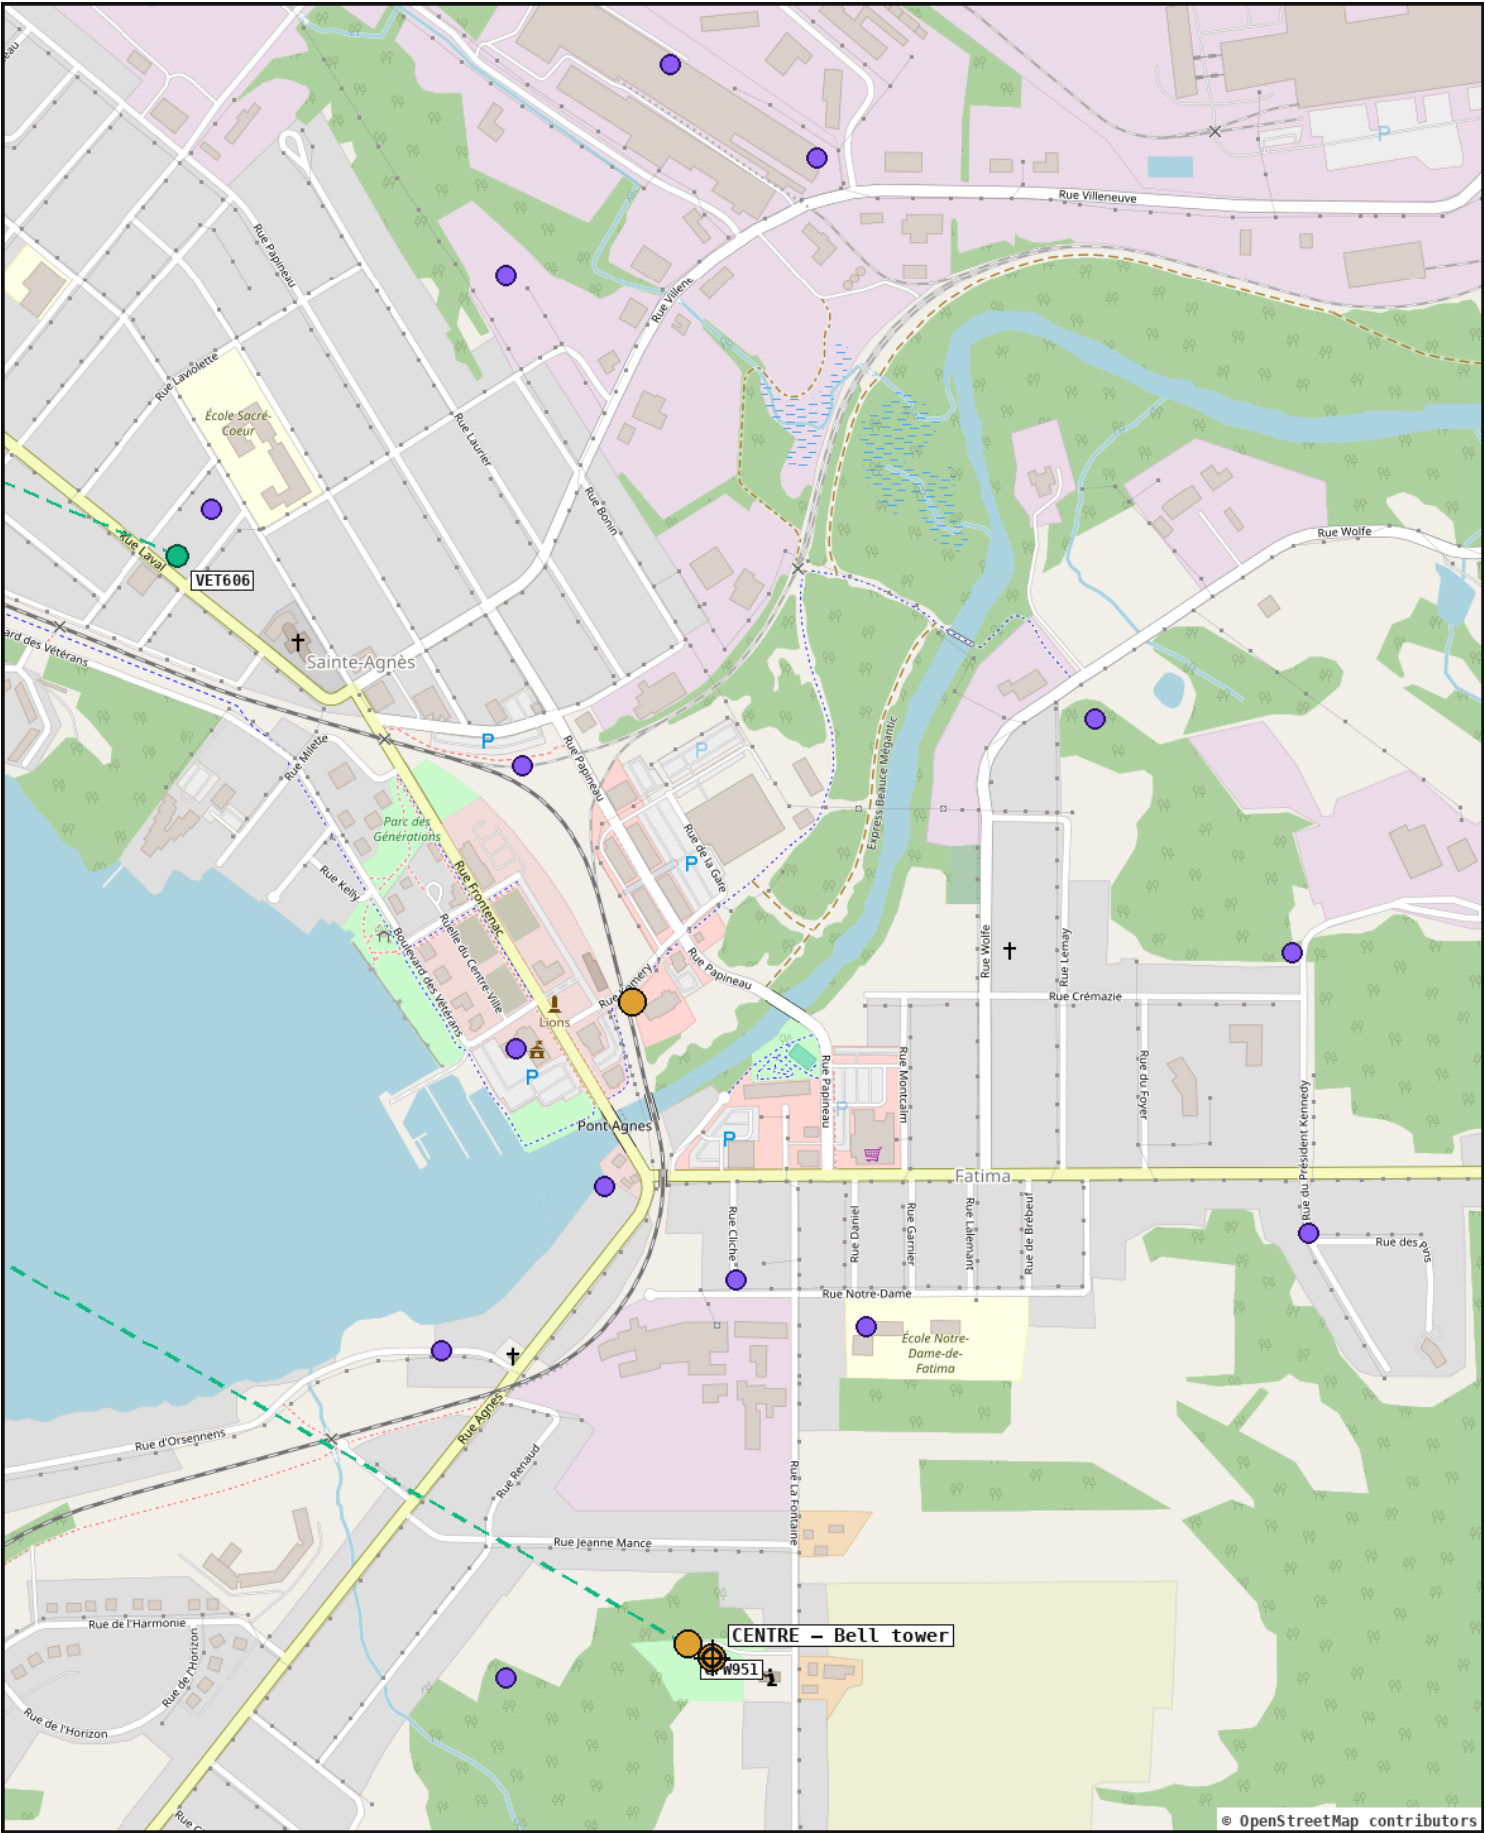

● Spectrum licence site ● LMR station ● Fixed / microwave (dashed ray = beam azimuth)
○ Broadcast (all outside 3 km – not on maps)

MAP 1 – 3 KM RADIUS OVERVIEW

Full 3 km search radius (dashed amber circle) centred on the Bell tower. All mapped stations from the three in-radius datasets are shown.

MAP 2 – STATION CLUSTER CLOSE-UP

Close-up of the densest part of the zone – the town centre around the Bell tower, where most stations sit. Fixed/microwave sites are labelled with their call signs; dashed emerald rays show each microwave link's transmit beam azimuth.

SPECTRUM LICENCE SITES (222 RECORDS • 4 SITES)

Cellular / commercial mobile operators (Bell Mobility Inc., FIDO SOLUTIONS INC., Rogers Communications Canada Inc., TELUS Communications Inc., Telus – Regulatory Affairs, The Railway Association of Canada).
